ABOUT ME

High-level software design and development applying DDD and SOLID, ensuring scalable, maintainable solutions aligned with the business.

I integrate AI throughout the SSDLC | +15 years in software development

SKILLS

BACKEND (EXPERT)

Java Spring framework

Node.JS

Typescript

ExpressJS

FRONTEND (ADVANCED)

Angular

React

PRINCIPLES (ADVANCED)

DDD / SOLID

Hexagonal architecture

MOBILE (ADVANCED)

Flutter

React Native

CLOUD/DEVOPS (MID-LEVEL)

Docker

AWS

SOFT SKILLS

- Analytical skills
- Project managment
- Perseverance
- Team leadership
- Critical thinking

LANGUAGES

- Spanish - native
- English (mid level – B1/B2): Fluency in reading technical documentation, participation in basic meetings.

EXPERIENCE

ARENATECH · JAN 2024 - TODAY

Company dedicated to the financial sector, I help develop web applications and implement working methodologies based on DDD, SOLID principles and clean architectures. We improve code quality through testing and separation of domain logic. I lead the software community to drive change (6 members).

Technologies: Angular, Node.js, MongoDB, MySQL, Docker, Java con Spring, Kafka, AWS…

BEJOB · JUL 2019 - DEC 2019 (FREELANCE)

Tutoring, support and answering questions in two programming courses for 1,000 women at risk of exclusion.

- Web programming course 1 (HTML5, CSS3 and JavaScript)
- Web programming course 2 (SPA with Angular and API in ExpressJS)

DEV & DEL · JUN 2018 - JAN 2024

Development of a white label platform similar to Netflix for offering courses. Gathering requirements from the client until the solution was launched, managing a team of four people.

Technologies: Angular, Node.js, ExpressJS, Mongo, MySQL, Docker, Spring.

TRAGSATEC · JUL 2016 - JUN 2018

Maintenance and upgrades of applications for oil and wine from the Ministry of Agriculture. Analysis, upgrade requirements, development and packaging of the solution. Integration through.

Technologies Java, Oracle, PL/SQL, HTML, Javascript, Dhtml

ELENCO · MAR 2016 – JUN 2016 (FREELANCE)

IT tasks, maintenance, and upgrades for the Navision vertical installed at the company.

Technologies Navision 5

MRM/MCCAN · MAY 2014 – FEB 2016

Development of landing pages for email marketing, webapp maintenance, and a project for Christmas 2015 using Vanilla JS on web.

Technologies Java, Vanilla JS, HTML 5 y CSS3

ITEM · NOV 2013 – DEC 2013 (FREELANCE)

Evolution of two industrial applications from Visual Studio 6.0 to Visual Studio 2008.

Technologies .Net, CSharp

EVENDOR ENGINEERING • MAY 2011 – MAY 2014

Development and maintenance of web applications according to the requirements of clients in the banking sector.

Technologies Java, Spring framework, Hibernate, Mybatis, JQuery

SANTANDER G.F. • JUN 2010 – MAY 2011

We developed a desktop application to manage the company's internal courses.

Technologies .Net CSharp, SQL Server

IBERMATICA • 2009 - 2010 (FREELANCE)

We develop applications for operator control in industry. Requirements gathering, design, and proposals for maintenance and upgrades.

Technologies .Net, SQL Server

FLOWFIELDS • APR 2008 - 2010 (FREELANCE)

Projects with ERP Navision for different clients. Creation of a library to be integrated into Navision.

Technologies Navision 5.0

MATCHMIND • SEP 2007 - APR 2008

Junior ERP Navision consultant developing various verticals.

Technologies Navision 5.0

EDUCACTION

FEATURED TRAINING

2025 - BOOTCAMP AI4DEVS (LIDR)
- Full SDLC development with AI integration in design, documentation, coding, and testing

2023 - CURSO ARQUITECTURAS LIMPIAS (XURXODEV)
- SOLID principles, Clean Architecture, Design Patterns, and Testing

2019 – CURSO DE DESARROLLO DE APLICACIONES WEB SEGURAS (ALPHASEC)
- Secure application development avoiding security flaws in APIs and Docker.

2017-2018 – MOBILE DEVELOPMENT BOOTCAMP (KEEPCODING)
- Master's degree in native mobile applications Swift Kotlin and React Native, including CI/CD and app design.

ACADEMIC TRAINING

2003-2007 - COMPUTER SCIENCE ENGINEERING (URJC)
- Computer Science Engineering (3 years)

2001-2003 - HIGH MODULE OF DAI (HEASE)
- High module of computer applications development

COMPLEMENTARY TRAINING

2020 - F.I.R.E. PROGRAM (UNCOMMON FINANCE)

2024 - ENGLISH LEVEL COURSE B1 (OFFICIAL LANGUAGE SCHOOL SPAIN)

PROJECTS

2022 - SUDOKU (FLUTTER)
